About ENoP

The European Network of Political Foundations (ENoP) is a cooperation structure, serving as a communication and dialogue tool between the European political foundations and the Institutions of the European Union (EU), as well as civil society actors in the fields of democracy support and development cooperation. Furthermore, the network provides services to its members to facilitate their participation in the respective programmes of the EU. The network counts over 50 member foundations from 22 EU Member States and the UK. The members are affiliated to six political party families represented in the European Parliament (Renew Europe, EPP, S&D, ECR, Greens/EFA, GUE/NGL), but are independent in their decision-making and financing of international projects. The activities of political foundations in the fields of democracy support and development cooperation include public campaigning and awareness raising, advocacy work vis-à-vis political institutions and decision makers in their respective home countries, as well as the EU level. The main focus, however, is on the implementation of democracy support and development projects with local partners in more than 100 developing and transition countries throughout the world. Since March 2019, ENoP is implementing an EU co-funded action grant, called “Strengthening ENoP as actor in support of democratic and pluralistic societies”.
